

## The Caring Society's thoughts on ISC Reform:

Pursuant to 2022 CHRT 8, an Expert Advisory Committee (the **EAC**) has been formed to oversee the implementation of an evidence-informed work plan to prevent the recurrence of discrimination and that Canada shall undertake reasonable measures to begin implementing the workplan. The Caring Society welcomes the expert advice of the EAC and recommends that the EAC reports directly to Chiefs in Assembly and to the Tribunal on its work and views of Canada's risk of recidivism and the sufficiency of safeguards to detect and address discrimination.
